

# OCOEE UTILITY DISTRICT

---

## Official Response from Ocoee Utility District

We appreciate the community's engagement; however, the information circulating in this post is **incorrect**.

Ocoee Utility District is **not implementing a 120% water rate increase**, The figures presented in this post do not reflect the facts.

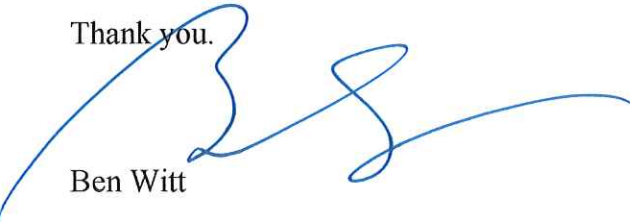

Additionally:

- No customer will see their bill double or increase by 120%.

We are committed to transparency and welcome any resident to review the official rate study, meeting minutes, and documentation directly from the District to avoid misinformation.

For accurate information or questions, please contact Ocoee Utility District directly at **(423) 559-8505** or visit our office.

Thank you.

Ben Witt

General Manager
